Nautic Collection

Younique Plus creates innovative yet artisanal lighting solutions that are more than just beautiful objects; they bring expertise, culture, and their unique character for an exclusive lighting experience.

Yunique Plus
Nautic Collection

— Experience the power of light

Younique Plus Nautic collection

Featuring Younique Plus Nautic collection, indoor and outdoor lamps that combine aesthetic with energy efficiency and safety to meet the challenging technical standards of yacht projects. Thanks to our long-time experience in the lighting sector and working closely with yacht designers, we customized some of our best sellers for nautic applications. Exceptional lighting solutions for owners and designers that recognise the importance of a sophisticated lighting plan.

Phoebe

Nautic Collection

— Create a unique atmosphere

Phoebe Nautic Collection

Inspired by the charm of ancient lanterns brought to modern living by expert makers, this timeless lamp is made with AISI 316 L Stainless Steel processed with chemical passivation. Answering to the challenges of nautic design, such as lack of space to run wires, access units for maintenance, and a highly corrosive environment, we developed a special edition of the Phoebe lamp for yachts. The result is a flexible and efficient product with a high-tech rechargeable battery that sets the atmosphere of the space.

Phoebe L

Battery powered
floor lamp

Talitha

Nautic Collection, Brass, Bronze Finish

— Enhance the details of the space

Talitha Indoor Nautic Collection

Simple and modern, Talitha indoor lamp hides luxury in the details with chromed and brassed finishes. With its orientable diffuser, it creates atmosphere and helps to bring out the colour and texture of the interior finishes. To meet the needs of yacht design, we customized Talitha by moving the dimmable switch on the body of the lamp and adding fixing.
